- Make some frontend works like plots and menus

Python Developer
PEAT Technology
- 06/2018 - 10/2018 San Francisco, CA
- http://peat.technology/

Plantix is a mobile crop advisory app for farmers, extension workers and gardeners. It can diagnose plant diseases, pest damages and nutrient deficiencies affecting crops and offers corresponding treatment measures. Users can participate in the online community to network with other farmers, discuss plant health issues and access their local weather reports. Plantix was developed by PEAT GmbH, a Berlin-based AI startup.

- My responsibilities was:
  - Developing backend API
  - Writing code, tests, fixing bugs

PASSIONS

- Motocross
- Sailing
- Collaboration and Teamwork
